

GRADUATE PROGRAMME

“

I would recommend AmcoGiffen to any new graduate because I believe I'm an example of what a great company can provide for you.

Not only has AmcoGiffen provided me with the tools and training I needed to get me my qualifications, they have helped me mature into the person I am today.

”

Our Offer

Our graduate programme is a two year, structured course providing learners with a six month business placement, rotations, supported career pathway, links to professional bodies, structured development and mentoring and an excellent benefits package.

It will provide recruits with a comprehensive understanding of a fast growing; civils, building, engineering, maintenance and design contractor. Experience of working across rail, environment, highways, energy and infrastructure and both public and private sector.

The aim is for graduates to progress to a range of roles within AmcoGiffen on successful completion of the programme.

To apply, send your CV to Tom Peach, Recruitment Manager | tom.peach@amcogiffen.co.uk
