## Supply Chain Briefing

### AmcoGiffen – Network Rail Supply Chain Opportunities

Dear Supply Chain Partner,

AmcoGiffen are committed to promote Network Rail's SME Action Plan which aims to support businesses through greater collaborative working and engagement with Tier-1 suppliers.

We are also signatories in supporting the Rail Delivery Group's Work Pipeline Visibility Charter.

As part of this initiative we will be periodically updating our Network Rail pipeline of awarded contracts providing visibility for our supply chain partners to identify relevant opportunities for their chosen products and services.

Below is an itemisation of our awarded Network Rail pipeline contracts, this schedule will be updated in line with monthly Network Rail pipeline updates, which can be accessed here:

<https://www.networkrail.co.uk/industry-and-commercial/supply-chain/procurement/>

We look forward to working with Network Rail and other strategic partners, in sharing our collective challenges and goals, helping to ensure the rail industry is looked to by others as the example of open, collaborative relationships that drive true value for the clients, stakeholders, passengers and the wider communities across all regions.

For more information on accessing our supply chain opportunities advertised please contact:

[supplychain@amcogiffen.co.uk](mailto:supplychain@amcogiffen.co.uk)

Best regards,

Michael Hardy

Head of Supply Chain & Procurement

**AmcoGiffen – Pipeline Feb 22**

Region	Contract Name	Scope of Work	Existing Supplier
Scotland	Copes Replacement	176685 Copes Replacement	AMCO
Scotland	Garrowhill Culvert (GCC)	166572 Commission 02-007	AMCO
Scotland	OB 056/020 North Street OB 056/020A Stobcross Street OB 056/021 A804 Kingston Bridge T 056/006 Canning Street T 056/028 Kelvinhaugh Tunnel	Various Renewals Commission-03-003	AMCO
Scotland	Drem & Drumry Platform Renewal	Various Renewals Commission-03-008	AMCO
Scotland	UB 303/130 Craig Burn Devron UB 302/106 Redburn Saltings	Various Renewals Commission-03-006	AMCO
Eastern	AFA Garforth	170778 Footbridge and Lifts	AMCO
Eastern	AFA Hertford Nort	167484 Lift onto platform	AMCO
Eastern	Alfreton AFA footbridge GRIP 4	130874 Access For All Stn improvements	AMCO
Eastern	Alfreton AFA footbridge GRIP 5-8	130874 Access For All Stn improvements	AMCO
Eastern	Beeston AFA footbridge	130874 Access For All Stn improvements	AMCO
Eastern	Cricklewood AFA footbridge	130874 Access For All Stn improvements	AMCO
Eastern	Cricklewood Stn New Entrance	130874 Incremental work to AFA project to provide new western entrance to station	AMCO
Eastern	DOO Recoveries - Phase 2	165824 The project scope is the recovery of the Driver Only Operation (DOO) Closed Circuit Television (CCTV) and Mirror systems at 19 stations on the London North Eastern Route between Huntingdon and London Kings Cross, including the Hertford Loop and on the Cambridge Branch between Hitchin and Royston. The assets have been made redundant through a TOC programme to put DOO systems onboard the trains. The contractor will be required to undertake survey, design, construction and handover activities as part of the contract.	AMCO
Eastern	DSN2/31 - Recon of deck	170601 Reconstruct deck 2 or consider infilling	AMCO
Eastern	DSN2/32 Reconstruct	170600 Reconstruct both decks	AMCO
Eastern	ECM1/184DB (ALSO PMJ/79) G2 DN THROUGH BRIDGE	165433 Bridge Renewal	AMCO
Eastern	ECM1/184DD DN SIDE RIVER SPAN G2	165432 Bridge Renewal	AMCO
Eastern	Flitwick AFA footbridge	130874 Access For All Stn improvements	AMCO
Eastern	HBS Hull Botanic	165163 Building renewals works at Hull	AMCO
Eastern	LBE1/34B Stanningley Tunnel Bo	165747 Develop & install methods of stabilising lining & managing water ingress	AMCO

Eastern	LBE3/1 (ALSO DUH/40) PLANETREES ROAD	<p>170591 Design &amp; implement any strengthening / repair works identified as necessary from the Finite Element Analysis (results due March 2014);</p> <p>Provide new deck end drainage detail; undertake generic repairs to areas of spalled concrete soffit &amp; painting to metallic parts (once waterproofing has enabled the deck to dry out)</p> <p>Undertake Brickwork Repairs including Re-pointing of Joints &amp; Fractures</p> <p>Remove all Vegetation on and adjacent the structure (within 3m) and remove from site. Grub out Roots &amp; make good any damage caused by the removal of such.</p>	AMCO
Eastern	LEN3 Billingham Station	171963 Platform Renewal at Station	AMCO
Eastern	Luton Town Station AFA footbridge	130874 Access For All Stn improvements	AMCO
Eastern	Millhill Broadway AFA footbridge	130874 Access For All Stn improvements	AMCO
Eastern	MVL3/40T Standedge Tunnel (G2)	<p>165217 Undertake GRIP stages 3 to 8 to design and implement a solution that will arrest ongoing movement and will maintain the long term stability of the three railway bores (MVL3/40, MVL3/41 &amp; MVL3/41A) at Standedge Tunnel between tablets 250 and 290 (Full Profile Up &amp; Down). The three main areas of concern are tablets 262, 280 and 288. Existing monitoring information should be reviewed and validated as part of the scheme and solutions proposed to address the areas of highest movement on a priority basis. The global impact of the proposed solution must be considered as part of the design, including the effects on the adjacent and surrounding tunnel sections, the Canal Tunnel as well as the shafts, cross passages and adits, with suitable mitigation proposed to maintain long term stability if adverse effects are anticipated. It should be considered that historically when one bore has been repaired the other bores then begin to deform as rock loading is altered, which should be accounted for in the staging of works. It should be noted that extensive SI has been undertaken in CP5 which should be used to inform the design. Previous stabilisation works have been undertaken at various locations see Standedge Tunnel Management Strategy (TMS) for further information.</p>	AMCO
Eastern	MVL3/40T Standedge Tunnel Implementation Stage 3	165217 Tunnel Renewals	AMCO
Eastern	MVL3/76	165217 Voids identified in Renewal (work id: 507109) to be addressed	AMCO
Eastern	MVN2/178 WOODHOUSE BRIDGE	170547 Infill spans 1 & 2 (metallic spans)	AMCO

Eastern	MVN2/231 Thornes Lane	<p>170553 Design &amp; implement any strengthening / repair works identified as necessary from the Finite Element Analysis (results due March 2014);</p> <p>Provide new deck end drainage detail; undertake generic repairs to areas of spalled concrete soffit &amp; painting to metallic parts (once waterproofing has enabled the deck to dry out)</p> <p>Undertake Brickwork Repairs including Re-pointing of Joints &amp; Fractures</p> <p>Remove all Vegetation on and adjacent the structure (within 3m) and remove from site. Grub out Roots &amp; make good any damage caused by the removal of such.</p>	AMCO
Eastern	NEC1/17River Team	165290 Structure Renewal	AMCO
Eastern	NOC/29 (Also CFM/2) Common Road	<p>172103 TRU PROPOSE TO RECON STRUCTURE FOR TRACK REALIGNMENT &amp; OLE CLEARANCE</p> <p>However, should TRU reconstruction not go ahead in CP6, then require short term mitigation to ensure safety of weak bridge until future reconstruction: either implement single laning and traffic lights (based on NYCC proposal, DRAFT drawing CF/TS01), or further holding repairs/strengthening. Note minor holding repairs &amp; FEA re-assessment being undertaken in 2017 via Works Delivery.</p>	AMCO
Eastern	PGL2/1B Wellington Street underbridge replace	<p>165039 Option 1: Reconstruction of superstructure, or Option 2: Strengthening (ULS &amp; SLS) and repairs to superstructure. Scheme development to include a feasibility study and option selection. Strengthening option to allow for future provision of a compliant ballast depth beneath sleepers, as currently &lt; 20mm. Strengthening option to include for steelwork repairs (to severe section loss and make good rust jacking of diagonals) and targeted repainting. Strengthening option to include for steelwork repairs along whole length of bottom chords to restore integrity and web/flange connection. Strengthening option to include other minor maintenance items recommended in assessment and exam reports (e.g. bottom chord drainage). Strengthening of deck plates (substandard for HAW wagons) is excluded, as will be addressed by a future increase in ballast depth. Both options to include minor repairs to substructures (including works to rebuild end of wall PLG2/0/A2 to NW of bridge).</p>	AMCO
Eastern	SBF/4 SHIPLEY FIELDS	<p>170563 ORIGINAL: Rewaterproof deck and repaint metal elements. Replace any damaged stone slabs.</p> <p>AMENDED: Reconstruct superstructure &amp; re-habilitate substructure (FM 15/10/2015)</p>	AMCO

Eastern	SHB/52 CEMETERY ROAD.	170564 Raised to flag up possible future BG3 works	AMCO
Eastern	SPC8/68 Clay Cross Tunnel Bore	165281 Structure Renewal (RAM Arch)	AMCO
Eastern	STF/27	165286 Scheme deferred	AMCO
Eastern	TJC3/20 CANAL ROAD	170557 Raised to flag up possible future BG3 works	AMCO
