AmcoGiffen – Network Rail Supply Chain Opportunities

Dear Supply Chain Partner,

AmcoGiffen is committed to promoting Network Rail’s SME Action Plan, which aims to support businesses through greater collaborative working and engagement with Tier-1 suppliers.

As part of this initiative, we will periodically update our Network Rail pipeline of awarded contracts, providing visibility for our supply chain partners, to identify relevant opportunities for their chosen products and services.

Below is an itemisation of our awarded Network Rail pipeline contracts, this schedule will be updated in line with monthly Network Rail pipeline updates, which can be accessed here:

<https://www.networkrail.co.uk/industry-and-commercial/supply-chain/procurement/>

We look forward to working with Network Rail and other strategic partners, in sharing our collective challenges and goals, helping to ensure the rail industry is looked to by others as the example of open, collaborative relationships that drive true value for the clients, stakeholders, passengers and the wider communities across all regions.

For more information on accessing our supply chain opportunities advertised please contact:

supplychain@amcogiffen.co.uk

Best regards,

Ben McCluskey, AmcoGiffen, Procurement & Supply Chain Director
